About Me

Skilled Developer with 1.6 years of experience in developing and implementing front-end architectures that have resulted in significant increases in page load speed and user engagement. Proficient in collaborating with back-end teams to integrate user-facing elements with server-side logic, implementing automated testing platforms, and optimizing components for maximum performance. Staying up-to-date with emerging technologies and frameworks, and reducing development time for new projects.

Professional Experience

McCoy Mart | HTML Developer May 2023 – Present (9 months)

- Designed and developed a new user interface for a web application
- Developed innovative JavaScript web technologies to build a user-friendly, adaptive, and responsive website with improved cross-browser compatibility and optimized runtime performance
- Stayed up-to-date on emerging technologies and implemented new features, resulting in increase in website functionality and improved user experience.

Abaris Softech | Frontend Developer Mar 2022 – May 2023 (1 yr 3 months)

- Designed and developed a reusable component library for future use, resulting in reduction in development time for new projects.
- Utilized Redux for state management, resulting in reduction in code complexity and increase in team productivity.
- Collaborated with back-end developers to integrate user-facing elements with server-side logic, resulting in a reduction in page load times and improved website performance.

Web2byte | Summer Intern Sep 2021 – Dec 2021 (4 months)

- Developed and implemented a responsive design for a company website.
- Enhanced the usability of existing applications by applying the latest accessibility standards and best practices
- Collaborated with project managers to successfully deliver projects on time, resulting in an increase in organizational efficiency
